Design and Features

The distinguished Scandinavian design of the RAND Leisure brings a new kind of day-cruiser to the market. The minimalistic approach and the graceful, yet simple lines define what luxury at the sea is really about.

- THE SPORTY AND STYLISH OVERNIGHTER
- RUGGED EXTERIOR AND POWERFUL PERFORMANCE

- EXCEPTIONALLY SPACIOUS COCKPIT

Leisure 28 is designed for social interaction and perfectly fitted for on-the-water leisure. It features a built-in adjustable table and seating for up to 12 people. The table can be lowered to serve as the base for a relaxing king size sundeck. The rounded edges and wide hull make it easy to get in and out. The hull has been developed to provide the most stable platform possible to increase comfort on board. The electric propulsion ensures joyful sails without a loud motor running and the smell of gas while sailing.

Layout and Accommodations

Leisure 28 invites everyone onto a platform of relaxation with an excessively appropriated layout where the large triple aft sun lounge, expandable oversize u-sofa, full kitchen, and 2-split door toilet make up the cockpit, and the spacious 2 person luxury cabin make up the lower deck.

Leisure 28 is a showcase of modern luxury at sea and excels in its wide array of seating options and social space. It offers an overwhelming amount of space aboard, providing maximum comfort and movability to its passengers. The cabin holds a queen-size bed for two people when staying overnight. The lightweight construction is fundamental for a boat to achieve superior performance and low consumption of fuel or electricity depending on engine selection. The RAND Leisure consumes significantly less than traditional boats and will be the environmentally friendly choice within the watersport boat-category even if choosing a gasoline engine. We use materials developed from recycled plastics and bio-based hybrids to optimize the environmental impact and create the best possible solution.

Performance and Safety

The design is uncompromising, in the way that functionality comes first. The beautiful lines and surfaces, the graceful details, and the impressive amounts of space provide freedom to move around. Whether you will do high-speed sailing in smooth waters or ride big waves at the ocean, the RAND Leisure will maneuver with a fun and engaging steering while remaining stable and safe.

The dedicated kitchen & bar forms the center of entertainment and hanging out. It is easy to bring cold refreshments and a bite to eat. The streamlined steering console offers effortlessness and high usability.
