## Features

Bayliner VR4

2023 model Bayliner VR4. This particular model has been dry stacked from new, has one owner from new and comes complete with full Mercury service history and balance of Mercury warranty.

The VR4 bowrider is easy to tow launch and store and really fun to use. This model delivers plenty of interior space thanks to our design which carries the full beam further forward for more comfort and capacity than traditional pointed bows. The design increases the rear seating area by shifting it to the aft-most point of the running surface allowing the swim platform to extend beyond that. That means more room for comforts like movable backrests for versatile seating configurations available bow wind block and optional filler cushion that together create an additional bow seat optional sun pad cushion inserts that expand the sunbathing area and plenty of convenient storage throughout.
