Features

Summary

Virtue V10: All year round cabin explorer, â• the gran turismo of the seas. Berths for up to 4 people, â• 2m standing height in main cabin. Comfortable and versatile with different layouts (sofas, suspension seats, wetbar).

Virtue V10 Cabin

Virtue V10: All year round cabin explorer, â• the gran turismo of the seas. Berths for up to 4 people, â• 2m standing height in main cabin. Comfortable and versatile with different layouts (sofas, suspension seats, wetbar). Promotional price of £245,000 ex VAT (was £260,000)

Concept and Highlights

The V10 fits comfortably in a 10x3 meter mooring, a very common European marina berth with cost savings significantly below those above 10m.

V10 highlights:

- efficient swedish Petestep® technology giving exceptional ride, efficiency and noise reduction
- reduced fuel consumption
- dual fridges, a sink and a grill in the outside galley
- outstanding stereo system
- bow thruster
- synthetic foam decking
- bathroom with toilet and shower
- adaptable aft area, convertible between sunbed, passenger benches and dining area
- high-end cockpit seats with race-designed seat suspension
- modern cockpit electronics

- fresh water system
- drop-down side platforms to enlarge the social space
- deck and underwater lighting
- aft and bow shade system
- rooftop solar panel
- excellent storage
- deck shower

Functionality

The V10 features a modern open-bow center console design. The deck allows up to 10 people to relax or be active in ultimate comfort. The bow features a double sunbed with cup holders and speakers, while aft there is an adjustable seating area on top of well designed storage compartments. The area can be configured as either benches individually facing forward or backwards with the table in the middle raised, or lowered to make a comfortable sunbed.

The upholstered exterior elements serve as both armrests and drink holders. Between the helm and the rear bench is the wet-bar, generously equipped with dual refrigerators, an electric grill, sink and food preparation area. Below at the bow is a full cabin that comes standard equipped with a wide double bed, a wardrobe, lockers, and a bathroom with toilet and shower and wash basin.

The electric drop-down platforms extend the boat beam generously, giving the feel of your own beach club on the water when the boat is at anchor.

Powerful Propulsion

The V10 series are powered by outboard engines - with options from a single 250 HP up to twin 300 HP or electric outboard engines between a single 240 HP to twin 300 HP.

Steering

A bow thruster is an option on V10. In twin-engine versions, there is the option for a joystick control system making manoeuvring in port simple and intuitive.

Amenities

The V10 is not just an ambitious and agile yacht - it is a comfortable tool for active leisure. Quality and versatility are the elements needed on the water and this is why such a wide array of options are offered in addition to the standard options. These include a variety of sound systems, a windlass, sun shades, a water ski frame and much more.
