Features

Rand Play 24

The PLAY 24 concept embodies the RAND vision of easy and intuitive leisure activities at sea, while enhancing fun, space, performance, and speed. This 24ft day-boat accommodates up to 10 persons and offers an impressive level of customization and comfort. The bow seating area can convert into an XL sunbed, and the aft area transforms into a relaxing king size sun lounge.

RETAIL PRICE: £131,352 INC UK VAT - OFFER PRICE: £99,950 INC UK VAT.

- THE MOST SPACIOUS CENTER CONSOLE
- GROUNDBREAKING USE OF DECK SPACE
- PERFECT FOR FAMILY WATER ACTIVITIES

The open day cruiser is divided into three zones, each designed for different usability scenarios. These include the spacious aft sun lounge, expandable through the flip-over pilot backrest, the three-seat pilot sofa, and the comfortable bow dining area layout, all aimed at maximizing joy for its passengers. The bow lounge area comfortably seats up to 7 people and transforms into an XL 200 x 200 cm sunbed protected by high backrests. The helm area provides great seating for 3 people and forms an oversize chaise in connection with the swim platform. The backrest can transform to create a king size sunbed and supports the captain in a raised steering position for improved visibility.

Moving around on the Play is effortless with its walkways and open space. The protective freeboard opens up to a large swim platform, making it easy to jump in for a swim.

The lightweight construction is essential for achieving superior performance and low fuel or electricity consumption, depending on engine selection. The RAND Play consumes significantly less than traditional boats, making it an environmentally friendly choice for watersports, even with a modern gasoline engine. The materials used are

developed from recycled plastics and bio-based hybrids to optimize environmental impact.

The design prioritizes functionality, featuring beautiful lines, graceful details, and impressive amounts of space, allowing freedom of movement. Whether high-speed sailing in smooth waters or riding big waves in the ocean, the RAND Play manoeuvres with fun and engaging steering while remaining stable and safe.

The sporty Play 24 steering console features a sharp, simplistic automotive-inspired design, a stainless steel steering wheel, and plush seating for up to two accompanying passengers.

Another remarkable feature of the Play 24 is the triple aft sun lounge, which can be expanded into full length by shifting the captain seat backrest forward through stainless steel hinge functionality. Relax on the lush upholstery for a nap or sunbathe to the sound of the waves.

The layout of the Play 24 offers an overwhelming sense of space compared to competing boats, providing versatility for various usability scenarios. Enjoy dining in the bow with an unobstructed view of the sea, lounging in the sun on the aft sun lounge, or cruising at full speed from the sporty captain's steering console.

The Play 24 is the most spacious and functional boat in its class. The pioneering centre console offers different usability scenarios and is fully customizable to meet your needs and preferences.
